To Whom It May Concern,

This letter is in support of Lurrana Legion. I have had the pleasure of working with Lurrana since 2006 at the Nevada Cancer Institute. She has served as a Community Educator/Partnership Coordinator since that time. The work we do at our non-profit organization rests largely in public awareness prevention, early detection, and treatment of cancer. Lurrana has played a large role in this initiative. She developed a number of prevention presentations for NCVI including sun safety, healthy lifestyles, and stress management. Lurrana has an interest and has researched the link between stress, illness, and aging, looking for a relationship to diseases such as cancer. She has been the recipient of several awards, including honorary recognition from Senator Harry Reid for her contribution to end of life care for Nevadans, an award and recognition from the Las Vegas Chamber of Commerce for community service, and an honorarium from the Nevada Multi-Cultural Coalition.

Lurrana is a very compassionate committed person that will succeed at anything she puts her mind to. I recommend Lurrana without reservation.

Sincerely,

A handwritten signature in black ink that reads 'Anita A Pomerantz'.
